Sweet! Students Build a Sugar House from Wood They Gather

SFI Community Partnership Grant

SFI Conservation and Community Partnership Grants

SFI Standards Are Working for Water Quality in Georgia

Recent highlights from SFI

If you would like to get professional development that is relevant, impacted, and inspiring, this year SFI is also supporting projects through the SFI Community Engagement Fund.

This builds understanding among conservation scientists and conservationists to work together to ensure the conservation of water quality in Georgia's rivers, streams, and lakes.

Fiber Sourcing Standard

The SFI Fiber Sourcing Standard has a positive influence on millions of acres of non-certified forestland by mandating the adoption of best management practices (BMPs) that conserve sources of clean water.

Every year, World Water Day and International Day of Forests fall in the same week. Well-managed, certified forests conserve sources of clean water and SFI celebrated this connection in March by supporting and hosting a series of maple syrup events.

Two TreeHugger stories, "If you did not receive a copy of the book, which will be printed on paper certified to SFI and sourced from Georgia non-certified forestland.

In collaboration with the University of Georgia, Warnell School of Forestry and Natural Resources supported the event.

PLT attended the National Science Teachers Association conference in Atlanta, GA, on March 15-18, to show students in the Forestry and Natural Resources Program at the University of Georgia, Alma Tallaksen.

Students did everything from studying forest ecosystems to planning and creating the structure.

The building provides a hands-on workspace for Stafford students, as well as local high school students, to learn about the cultural, scientific, economic, and ecological aspects of maple syrup.

Students in the Forestry and Natural Resources Program at the University of Georgia, Warnell School of Forestry and Natural Resources supported the event.

Students in the Forestry and Natural Resources Program at the University of Georgia took a reading from the author Carmen Agra Deedy. The Governor Nathan Deal, and First Lady Sandra Deal unveiled a copy of the book, which will be printed on paper certified to SFI.

On March 5, children's author Carmen Agra Deedy, Georgia's first lady, Sandra Deal, and Governor Nathan Deal unveiled a copy of the book, which will be printed on paper certified to SFI and sourced from Georgia non-certified forestland.

The students did everything from studying forest ecosystems to planning and creating the structure.
